

3.8 The World

Go to the official World Heritage website (<http://whc.unesco.org/en/list/>) For each continent, find a World Heritage site that was listed for its cultural heritage (excluding Antarctica which doesn't have any!)

Continent	Year Listed	Name of World Heritage site	Reason for Cultural Listing
Australia	1994	Kakadu National Park	Kakadu was listed because of its unique rock art sites which present the history of tens of thousands of years. It was also listed because Kakadu has many places with strong spiritual associations. Finally, Kakadu was listed because the ancient cultures are continuing to this day.s
