

Information Report Template

An information report is a way of documenting factual information.

Name

(including scientific classification)

Location

Appearance

Habitat

Food

Life Cycle

Interesting behaviour

If the report is on an **endangered species** then add the following headings:

- Level of endangerment and current status
- Reasons for endangerment
- Actions which can be taken.

If the report is on a **feral species** then add the following headings:

- Country of origin
- Type of impact
- Actions which can be taken.
