

# KWL

*What we Know, what we Would like to know and what we have Learned.*

- Brainstorm what students know about the subject
- List what they know. Discuss what they would like to find out and questions that need to be answered to fulfill the criteria for the task
- As they find answers to their questions write down what they have learned
- Revisit on a regular basis.
- As students progress through the unit of work they may find new questions to add to the chart.

What do we know?	What would we like to know?	What have we learned?
