

Our new look

Welcome to the new look Wet Tropics! Along with a revamped Enews the Wet Tropics Management Authority has refreshed its corporate logo and launched a new website.

Our logo has been updated to make it more contemporary, while still retaining the same principles as our previous logo. Bold colours and strong typeface make the logo easy to read and recognise.

The Wet Tropics Management Authority is thrilled with its new website and we hope you like it too! The website is your doorway to a treasure trove of ancient wonder, astonishing information about unique plants and animals and the myriad of adventures that await you on your next Wet Tropics journey.

We welcome you to an ancient landscape where you'll find the oldest surviving tropical rainforests in the world and an animal kingdom unchanged for millennia - your Wet Tropics World Heritage Area.

Our new website features a comprehensive database of 'Wet Tropics Walks' where you can search for a particular walk tailored to your needs. There are interactive maps, 'Hot Topics in the Wet Tropics' and great advice for visitors and locals planning to explore the Wet Tropics World Heritage Area.

The website has two sections. One section is dedicated to the intrepid explorers - where to go and what to do in the World Heritage Area and the plants and animals you may encounter.

The other section focuses on the Wet Tropics Management Authority and how we conserve the World Heritage Area through collaborative partnerships, share its outstanding values to promote discovery and enrich the lives of people everywhere by promoting enjoyment and appreciation of the Wet Tropics World Heritage Area.

Our new website is alive with World Heritage information, facts and resources. Visit wettropics.gov.au and rediscover your World Heritage Area. You can even 'like' us on facebook!
