

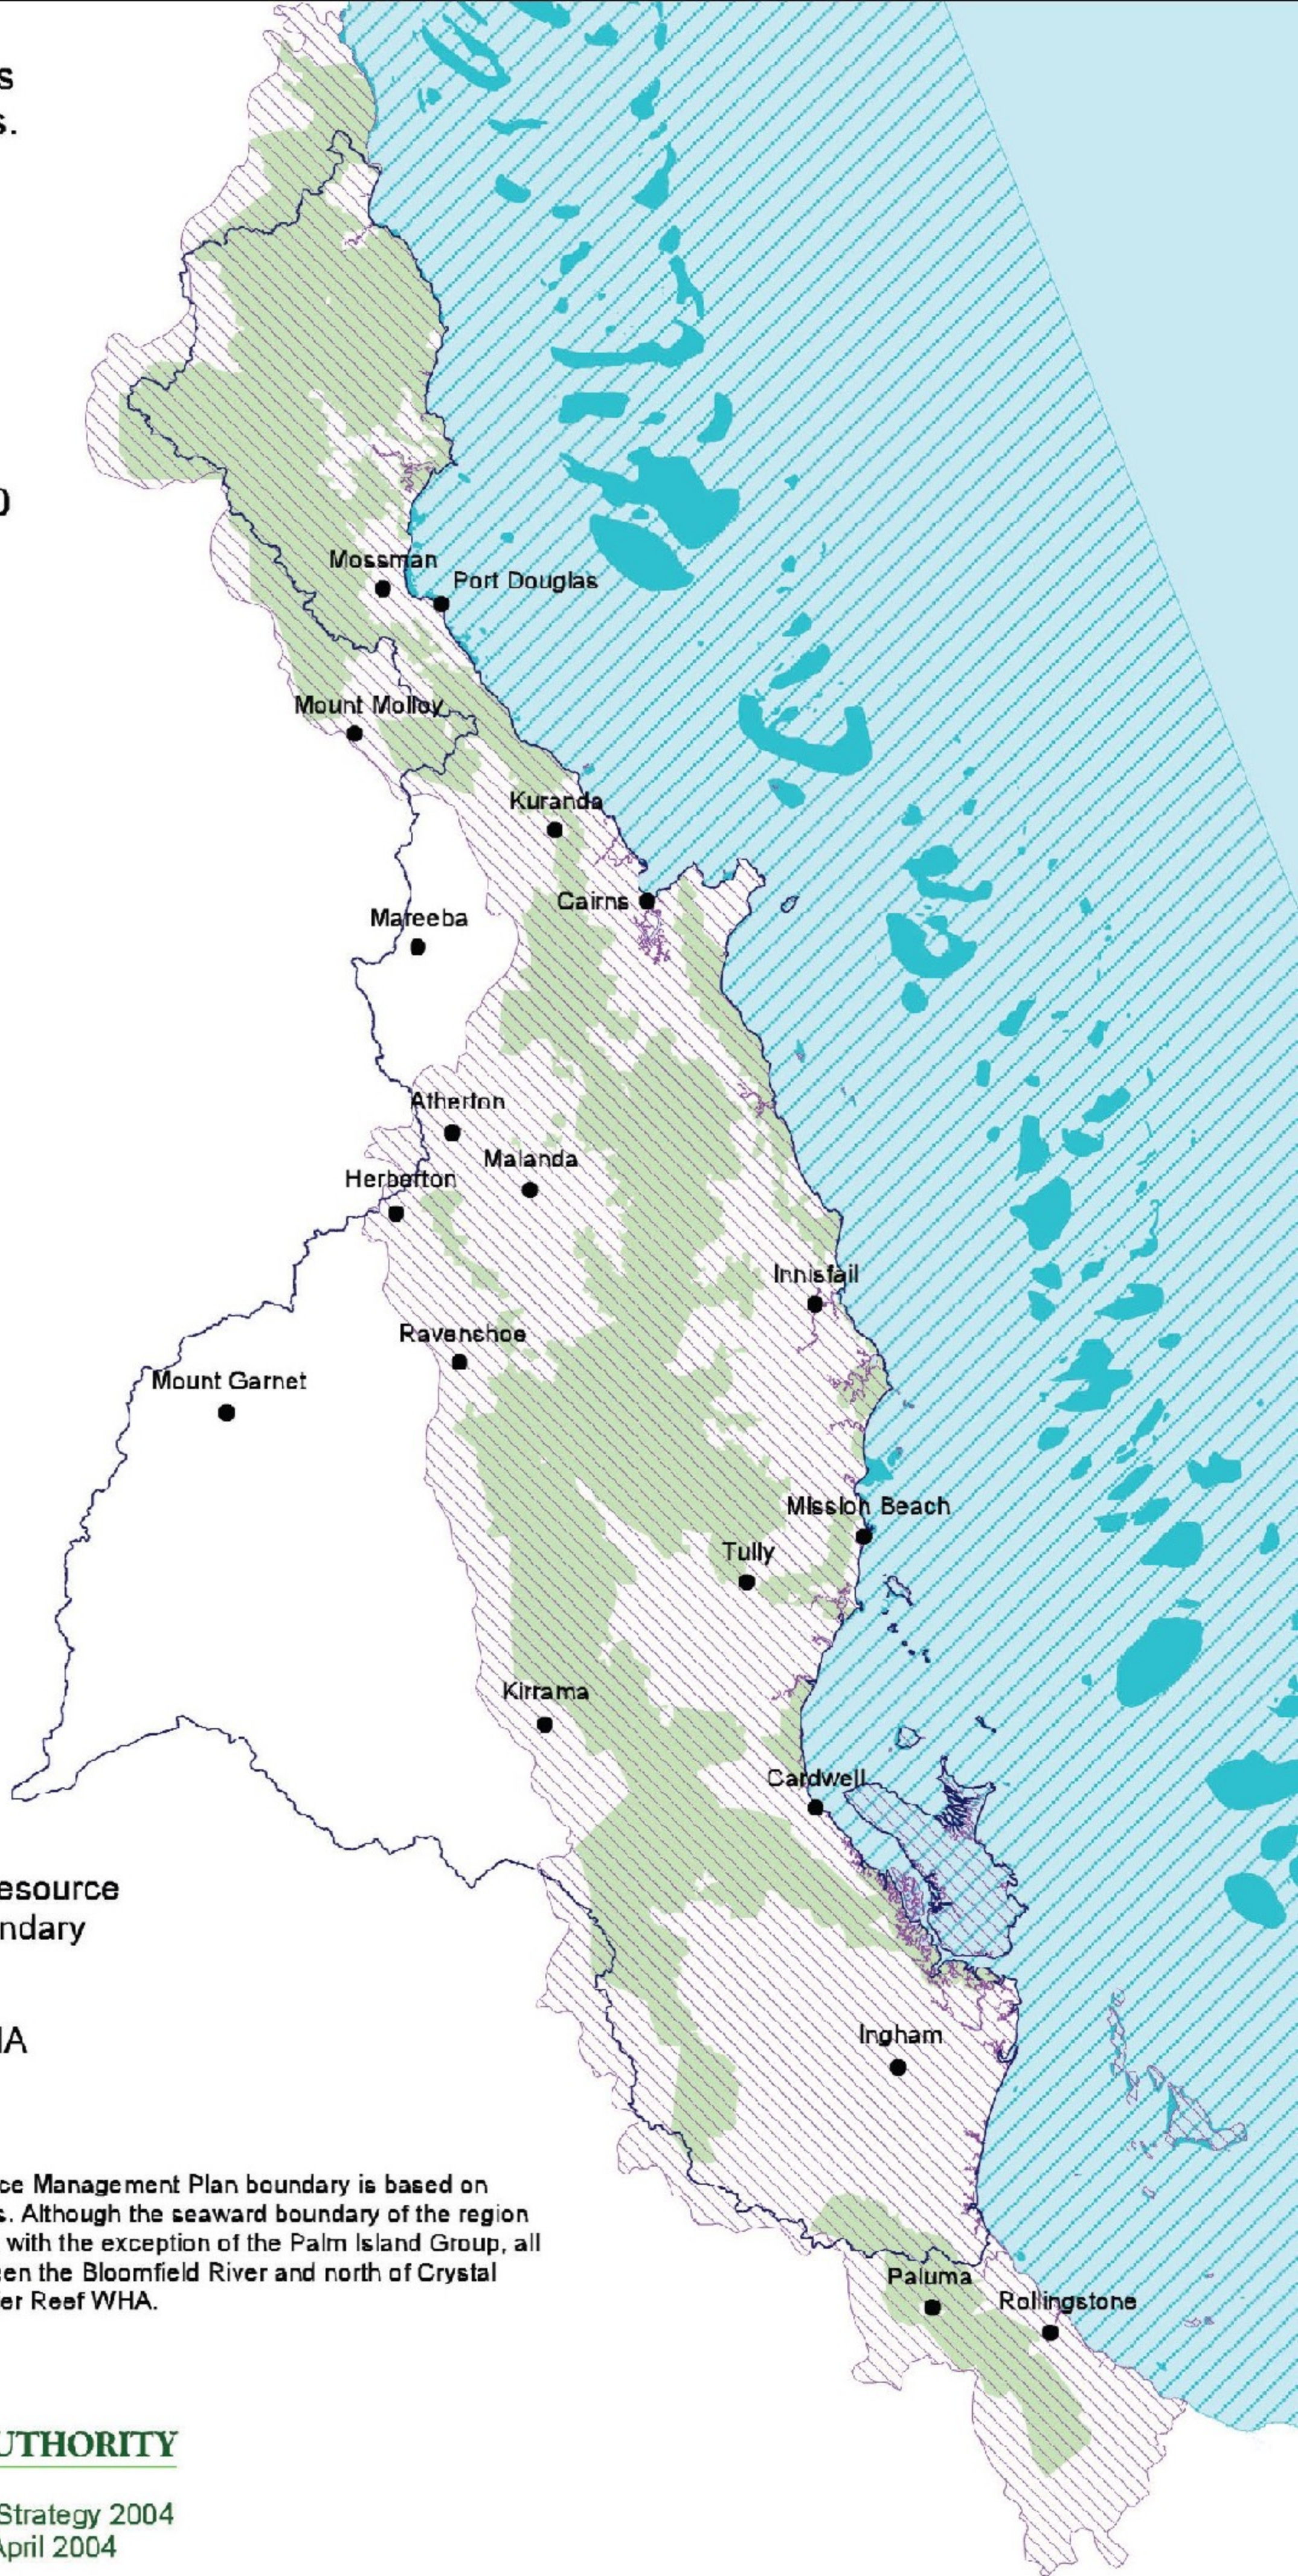

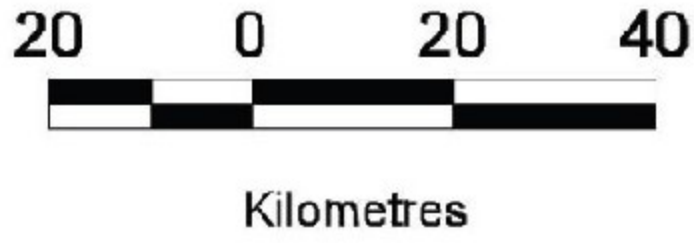

Map 2 - Wet Tropics planning boundaries.

Legend

-  Wet Tropics Natural Resource Management Plan boundary
-  Wet Tropics Bioregion
-  Great Barrier Reef WHA
-  Wet Tropics WHA

Note: The Wet Tropics Natural Resource Management Plan boundary is based on catchment management planning units. Although the seaward boundary of the region has not been defined, it encompasses, with the exception of the Palm Island Group, all State coastal islands and waters between the Bloomfield River and north of Crystal Creek, including part of the Great Barrier Reef WHA.
