

WET TROPICS MANAGEMENT AUTHORITY

Dear Landholder,

The Wet Tropics Management Authority is undertaking an aerial baiting program seeking to eradicate highly invasive yellow crazy ant infestations from the Bentley Park – Mt Peter area.

Three aerial baiting rounds per year are proposed over the next 3 years. The first round of aerial baiting took place in May this year with the second round scheduled for the week commencing **11 August 2014**.

Aerial treatment of larger properties is the most efficient and effective way of delivering the yellow crazy ant bait granules. However, due to CASA regulations, the helicopter is not allowed to undertake aerial treatment within 100m of an occupied house/dwelling unless prior permission is obtained from the landholder and/or resident. The Authority is therefore seeking your written consent for the helicopter to fly up to 10m of your house or dwelling while spreading the bait. Note: the helicopter will fly approximately 50ft feet from the ground.

We are therefore seeking your consent by completing the attached form and returning it to the address below.

If you have any concerns or require further information please feel free to contact me.

Kind regards,

Gareth Humphreys
